Ref#2019/092451

Dear Parent/Guardian & Student

### **Warriewood Valley Community Centre**

As part of Northern Beaches Council's ongoing commitment to providing quality facilities for the community, we are seeking to design and build a new multi-use community centre on the existing site of the Nelson Heather Centre in Warriewood.

The project has been incorporated into the *Warriewood Valley Development Contribution Plan Amendment 16, Revision 3* to cater for the increase in demand for new public facilities within the Warriewood Valley Release Area as existing facilities are already at capacity.

Council has undertaken wider consultation in developing the Community Centre Strategy, and now we would like to hear from local residents and users specifically in regards to this proposed new centre. If you would like to provide your thoughts and ideas to inform the design and function of this centre please go to Council's Your Say page, find the Warriewood Valley Community Centre project and complete a quick online survey – we would love to hear from you!
