

Writing Workshops

In the last week of Term 1 sixty students in Years- 7-10 participated in writing workshops with Zena Shapter, who is an award-winning author, creative writing tutor, short story judge and the founder of the award-winning Northern Beaches Writers' Group.

The four-hour workshops were tailored to our students with the intention of enhancing their creative writing skills.

The focus of the Year 7 & 8 workshop was on creating captivating characters and imagery, developing tension and using dialogue to enrich their writing. The focus of the Year 9&10 workshop was on crafting imagery, developing story precision, constructing culturally diverse characters, and experimentation with text structure and setting.

Both sessions were vibrant, energetic and imaginative, and offered students the opportunity to develop their individual voice and style, and deepen their understanding of writing techniques.
