

WALK IN NEW LIFE

MATER MARIA
CATHOLIC COLLEGE

YEAR 12 BIOLOGY AMGEN BIOTECH EXPERIENCE

Year 12 Biology students were very fortunate to take part in the Amgen Biotech experience (ABE) in conjunction with Sydney University. The program features a hands-on molecular biology curriculum designed to introduce students to the excitement of Genetic Technology in our own classroom here at Mater Maria. Our students produced a functional protein from genetically modified bacteria. Our students thoroughly enjoyed this authentic experience that will help them in their studies of the HSC Biology course.
